

## Stormwater Management Facility Improvements

### Project Update

As part of the Capital Works Program, the City of Vaughan will begin the construction work to retrofit the Fieldstone Stormwater Management Pond, located in the vicinity of Jevlan Drive and Chrislea Road.

The scope of work includes the cleaning and grading of the Fieldstone Stormwater Management Facility and the construction of access paths and fencing.

The construction schedule has advanced with work to commence on November 24, 2021.

Construction completion is anticipated by summer 2022.

### Construction Impacts

Roads will remain open to vehicular and pedestrian traffic during construction. Temporary traffic diversions will be required at times to allow construction activities to proceed in a safe and efficient manner. The City will work with adjacent businesses to coordinate access and staging requirements for construction.

**Please Note: Dumping is not permitted in the City of Vaughan and is enforceable under the Littering and Dumping By-law (No. 3-2004), as amended. Individuals found dumping are subject to a maximum fine of \$5,000 per offence.**
