

Mayor's Message

It will be easy to keep busy in the City of Vaughan this fall and winter. I am very proud to present the City of Vaughan's new Fall & Winter Recreation Guide, which is filled with events, attractions and programs for every member of the family.

Vaughan is a diverse, family-oriented community that takes pride in offering a wide variety of programs to its residents. The fall and winter seasons see many looking for indoor activities to keep everyone fit and healthy. The City strives to provide interesting and exciting classes, programs and events for adults and children alike.

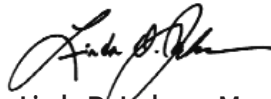

I encourage everyone to take advantage during the fall season by exploring one of our many walking trails and parks, getting together with friends and neighbours at one

of our many City events, or joining a fitness class and meeting new people. From swimming and skating to sports and fitness, the new Fall & Winter Guide provides activities that are both fun and educational.

Once again, we are offering complimentary activity passes for one free recreational skate, sport or fitness centre visit. The passes are good until March 15, 2010.

Please use this guide to plan your activities over the fall and winter months.

Sincerely,

Linda D. Jackson, Mayor
