FREE Translation Service Now Available!

Need to ask us a question about our programs and services, but English isn't your first language? Let us help you break the language barrier!

Vaughan community centres now offers *Language Line Services*, a new over-the-phone language interpretation system that provides verbal translation in over 150 languages!

It's quick and easy. Through a simple method similar to conference calling, our friendly staff can connect you to a live, English-speaking operator who also speaks your language. The operator will interpret your message and tell our staff your recreation and culture needs.

This service is available in-person and over-the-phone. Language Line Services can also be accessed at Vaughan City Hall via Access Vaughan.

This translates into "Great Service" in any language!
