9.1 GARBAGE COLLECTION – EFFICIENCY				
	2007	2006	2005	
	\$118.28	\$77.66	\$80.11	
<p>Efficiency Measure Operating costs for garbage collection per tonne.</p> <p>Objective Efficient municipal garbage collection services.</p>				
<p>Notes & Key Factors for Understanding Results With the additional weekly collection of household organic materials in November, 2006 and the increased frequency and more materials accepted in the blue box program in September, 2005, the limit of items placed out as garbage was reduced to 3 items every week (from 4). Any containers/bags/bulky items set out at curbside exceeding the 3 item garbage limit requires a paid garbage tag.</p>				
<p>Formulas for all efficiency measures were changed in 2005 to improve the definition of operating costs. SLC 91 3403 13 Financial Information Return.</p>				
9.3 SOLID WASTE DIVERSION (RECYCLING) – EFFICIENCY				
	2007	2006	2005	
	\$97.12	\$123.65	\$219.01	
<p>Efficiency Measure Operating costs for solid waste diversion (recycling) per tonne.</p> <p>Objective Efficient municipal solid waste diversion (recycling) services.</p>				
<p>Notes & Key Factors for Understanding Results In 2007, the City continued to implement its multi-phased Greening Vaughan Comprehensive Waste Management Plan. Phase 1 (enhanced blue box program) was implemented in September, 2005, with Phase 2 (introduction of the green bin program) starting in November of 2006. Phase 3 of Greening Vaughan was launched in September of 2007. The figures presented in the 2007 MPMP data show a relative increase in blue box and green bin tonnages and a moderate decrease in garbage tonnage. This is because the main component of Phase 3 was the move from weekly garbage collection to every other week garbage collection (with a 3 item limit). Anything over and above the 3 item garbage limit requires a paid garbage tag. Due to the greater restrictions on garbage collection, the later part of 2007 witnessed a further increase in materials collected in the green bin program and the blue box program, as those components of the program continued to be collected on a weekly basis.</p>

COLLECTION OF GARBAGE AND RECYCLED MATERIALS
EFFECTIVENESS**

	61.055	67.942	30.061	61.323	42.934

Effectiveness Measure

Number of complaints received in a year concerning the collection of garbage and recycled materials per 1,000 households.

Objective

Improved garbage collection of garbage and recycled materials.

Notes & Key Factors for Understanding Results

For the purposes of this measure, a complaint is defined as anything that required investigation and/or resolution by City staff. Most complaints are regarding missed garbage pick-up that are often a result of waste/recycling not being placed out for collection on time.

Complaints may be high due to calls coming in concerning the introduction of Greening Vaughan. Phase 1 was implemented in September 2005 and focused on enhancing recycling opportunities and decreasing the number of items permitted for curbside pick-up. Phase 2 in November 2006 was the introduction of the “Green Bin” program. Phase 3 launched in September 2007 which saw the move from weekly garbage collection to every other week garbage collection.

	1	1	1	1	1

Effectiveness Measure

Total number of solid waste management facilities owned by the municipality with a Ministry of Environment Certificate of Approval.

Objective

Context for solid waste management facility compliance measure.

Notes & Key Factors for Understanding Results

The City owns one (1) solid waste management facility (Dufferin Yard) however does not operate it as a landfill site. The Region of York is temporarily using the site for the processing of leaf and yard waste to control and eradicate the Asian Longhorned Beetle threat. The Ministry of Environment Certificate of Approval is issued to York Region.

	2007	2006	2005	2004	2003
	56.4%	31.8%	20.8%	18.7%	16.5%

Effectiveness Measure

Percentage of residential solid waste diverted for recycling.

Objective

Municipal solid waste reduction programs divert waste from landfills and/or incinerators.

Notes & Key Factors for Understanding Results

The City provides recycling pick-up to a very small number of non-residential units (approx. less than 150) and collects at approximately 10 institutional units (schools). This tonnage is included in the residential streams.

The first two (2) phases of Greening Vaughan – a multi phased waste management program aimed at diverting waste from landfill – were implemented in September 2005 and November 2006 and account for the increase in this measure.
