

CENTRE STREET CORRIDOR STUDY  
(Wards 4 and 5)

## Notice of Public Open House

Wednesday November 23, 2011  
6.30 p.m. to 9.00 p.m.  
Dufferin Clark Community Centre  
1441 Clark Avenue West, Thornhill, Ontario L4J 7R4

### Study Description:

The City of Vaughan Development Planning and Policy Planning Departments, with the assistance of the Consultant Team of The Planning Partnership and Polous & Chung, are currently undertaking a corridor study that will provide:

- **Land Use Recommendations** for a study area encompassing properties fronting the north side of Centre Street between New Westminster Drive to the east and Concord Road to the west.
- An **Urban Design “Vision” and Guidelines, and Streetscape Master Plan** for both sides of Centre Street, between Bathurst Street to the east, and Hwy 407 to the west.
- An **Implementation and Phasing** strategy to assist the City of Vaughan in identifying investment priorities and funding mechanisms for the area improvements.

### Purpose of Public Meeting:

This will be the third of three public consultation events planned for the land use component of the Centre Street Study, in combination with the Urban Design and Streetscape Master Plan Study.

The purpose of this Public Open House is to present the draft Land Use Plan and Urban Design and Streetscape Master Plan for the study area, and to receive residents’ input on the proposed policy framework.

The proposed draft Land Use Policies, Urban Design Guidelines, and Streetscape Master Plan are available for your review on the City web site at [www.vaughan.ca](http://www.vaughan.ca) by clicking on ‘Major Projects and Reports’ under the quick links menu ([http://www.vaughan.ca/newscentre/projects/centre\\_street\\_urban\\_design.cfm](http://www.vaughan.ca/newscentre/projects/centre_street_urban_design.cfm)).

The City of Vaughan and the consultant team look forward to working with the community on this next important phase of this exciting project for guiding development and improvements to the Centre Street corridor.

**Your input is vital to the success of this study.**
